The Honorable Commissioner of Patents and Trademarks
Washington, D.C. 20231

D E C L A R A T I O N

Anthony H. Handal declares:

1. He is a co-inventor with David Geshwind in the above-identified patent application.
2. On or about December 17, 1986, I signed the specification and claims attached hereto as Exhibit "A".
3. The same was filed with a postcard a copy of which is attached hereto as Exhibit "B".
4. As can be seen from the postcard, each of these materials were received by the Patent Office on December 17, 1986.
5. I am certain all of these documents were filed with the Patent Office insofar as it is my practice in every case that is filed to review the specification to be certain that all

the numbered pages are present in the document to be filed after it has been stapled.

6. In addition, it is my practice to look for the short description of the figures and verify that all the figures are included in the same stapled package.

7. It is further my practice in every case to verify that in addition to the numbered pages of the specification and the drawings to verify that there is at least one claim in the stapled document with the card attached to it.

8. Moreover, it is my practice to maintain a photocopy of all material filed in the Patent Office.

9. The specification and claims submitted herewith is a photocopy of a single stapled group of documents in my file and there is only one such stapled group in the panel of the file folder reserved for Patent Office communication. Accordingly, I am certain that this document identified as Exhibit "A" is identical to the documents sent to the Patent Office and acknowledged by the Patent Office as being received on December 17, 1986.

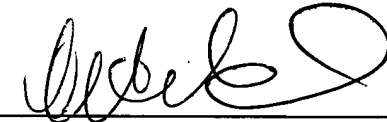

10. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such willful false

statements may jeopardize the validity of the application or any patent issued thereon.

Respectfully submitted,

Dated:

By:

Anthony H. Handal

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner of Patents and Trade marks, Washington, D.C. 20231, on _____.
